

I am writing you on the issue of LPFM and its negative impact on the community. I am a K-LOVE listener in my hometown. This radio station is a critical part of our community - as it provides many public interest services. It also provides the only Christian broadcasting choice in my area. The approval of LPFM would hinder my ability to receive the signal and would infringe on my right to receive radio signals. In addition, this would negatively impact the community by removing this very positive influence and choice on the airways. I ask you to not approve the use of LPFM. I believe it will be a negative thing for our community and hinder our rights as taxpayers to listen to the programming of our choice.

Thank you.
